## Vehicle Tracking ▶

### Volkswagen - Carpo

**Project:** Vehicle tracking during production

**Benefits:** Optimization of manufacturing process; reduced manufacturing errors; reduced search and down times; permanent on-line visibility; quality improvement; shorter production times; reduced production costs

**Solution:**

- 5000 i-Q Tags
- 60 fixed i-PORT read/write devices
- 10 ILR® Symbol Handheld PCs

### Deutsche Post

**Project:** Automatic identification and recording of trucks entering and leaving the distribution centers

**Benefits:** Authorization checks; recording and control of all truck movements; increased security; reduced congestion and idle times; reduced personnel

**Solution:**

- 15,000 i-D2 Tags
- 33 fixed i-PORT read/write devices
- 33 ILR® Timbatec Handheld PCs

### US Government – Customs and Border Protection

**Project:** Automatic identification of trucks at border crossings

**Benefits:** Rapid turnaround times; reduced congestion; real-time information about a vehicle's layover; increased control and security; reduced personnel

**Solution:**

- 5,000 i-D Tags
- 8 fixed i-PORT read/write devices

Authorised System Integrator

### Volkswagen-Autostadt

**Project:** Searching, tracking and monitoring of vehicles during delivery/pickup process

**Benefits:** Reduced search times; optimized manufacturing process; decreased errors at delivery; quality assurance

**Solution:**

- 12,000 i-Q Tags
- 20 fixed i-PORT read/write devices
- 100 ILR® Handheld PCs

# PROJECT REFERENCES

## Container Management

### Volkswagen

- Project:** Recording, tracking, monitoring and locating specialized containers in the manufacturing process
- Benefits:** Real-time visibility of contents and fill status; reduced wait and search times; optimized container cycle; optimized inventory levels; reduced procurement, errors and personnel costs
- Solution:**
- 10,000 i-Q Tags
  - 10 fixed i-PORT read/write devices
  - 10 ILR® Symbol Handheld PCs

### Vienna Airport

- Project:** Recording, tracking and locating vehicles and baggage carts
- Benefits:** Real-time visibility of quantity and status of equipment on the airport premises; optimized deployment; optimized inventory levels; reduced procurement
- Solution:**
- 1,000 i-Q Tags
  - 2 fixed i-PORT read/write devices
  - 3 ILR® Symbol Handheld PCs

### AVE

- Project:** Recording, tracking, monitoring and locating bulk containers using PALFINGER's "E-Waste" system
- Benefits:** Real-time visibility of contents and fill status; reduced wait and search times; optimized container cycle; optimized inventory levels; reduced procurement, errors and personnel costs
- Solution:**
- 4,000 i-D2 Tags
  - 57 Symbol Handheld PCs

Authorised System Integrator

### Undisclosed Customer

- Project:** Recording, tracking, monitoring and locating high-value parts in the warehouse, during transport and on installation sites
- Benefits:** Uninterrupted tracking of parts; real-time online inventory status; reduced search and idle times; reduced delivery errors and back-orders; reduced project schedules; reduced penalty costs
- Solution:**
- > 100,000 i-Q / i-D2 Tags
  - 80 mobile i-CARD III read/write devices
